### HULL DENIES NOTE TOUCHED OFF JAP WAR

#### Army Report Inference Is Branded As "Infamous Charge"

(By Associated Press)  
WASHINGTON, Nov. 27.—Correll Hull today branded as "an infamous charge" the inference in an Army inquiry board's report that the note he handed Japanese "peace" ambassadors Nov. 26, 1941, touched the button that started the Pacific war.

The former secretary of state, testifying before a senate-house committee inquiring into the Japanese attack on Pearl Harbor, assailed in vigorous language the interpretations made by the Army board.

"I sat under that infamous charge for months when every reasonable-minded person knew that the Japanese were attempting at that time to get complete control of the Pacific," Hull declared.

"Somebody who knows little about what was going on and who cares less, says 'why didn't the United States make concessions and keep us out of war?'" he continued.

**Bent On Attack**  
"Any reasonable person knows that the Japanese were bent on attack and knows that we could not have stopped them unless we had laid down like cowards."

Hull earlier testified he had only an unverified report of the attack on Pearl Harbor when he conferred with the Japanese peace envoys at 1 p. m. Dec. 7, 1941.

Hull told the senate-house committee investigating the attack that the White House had called him about noon of that day with the report that the Japanese had struck, but his informant was unable to confirm it definitely.

The question arose, Hull said, whether he should receive the Japanese at all or whether he should leave open the one chance in 10 that the reported attack had not taken place.

Hull said he went into the meeting to find that the Japanese delegates were talking "peace, peace, peace."

### Daniels To Go On Trial Dec. 10 As Scheduled

LISBON, Nov. 27.—Prosecutor Frank W. Springer today indicated the trial of Clinton H. Daniels of East Liverpool for the murder of Clarence Dickey in a milk wagon hold-up in that city 10 years ago, will proceed as scheduled for Dec. 10, with Atty. Gen. C. C. Lipps of Akron as counsel for the defense.

Lipps, who re-entered the case following the withdrawal of two other attorneys, indicated local counsel will also be retained in the defense of the war veteran, the third of the trio indicted for the murder to come to trial.

Dudley Adams and Beryl Rogers both of East Liverpool and each convicted in the courts here and each serving a life sentence in the Ohio penitentiary for their part in the crime.

### C. D. of A. Head Dies

CLEVELAND, Nov. 27.—Funeral service will be held Thursday at St. John's Catholic cathedral for Miss Mary H. Murphy, who died Monday at Huron Road hospital. A nationally prominent figure in Catholic women's activities, she served for the past eight years as Ohio regent of the Catholic Daughters of America.

## Commissioners Are Compelled To Abandon 'T.B.' Hospital Care Program Due To Fund Shortage

TWO changes in the county's financial program, over which they have no control, will compel the county commissioners to abandon hospital care for tubercular cases in 1946.

One is a decrease in the county budget amounting to \$18,000. The other involves an increase of \$15,000 in appropriations.

Together, these two items account for slightly more than the 1945 appropriations for hospitalization of 23 T. B. cases, totaling \$30,000.

That is the picture outlined today by Clarence Robinson of Lisbon, president of the commissioners, as he attempted to clarify the issues resulting from the defeat of the one mill tax levy for welfare purposes at the Nov. 6 election.

The decrease in the county budget results from the decision of the county budget commission to distribute sales tax receipts on the basis of 50 per cent to the county and 50 per cent to political sub-divisions—cities, villages and townships.

The effect is to reduce the county's share by \$18,000 on the basis of estimated receipts for the coming year.

The increase of \$15,000 is for the Soldiers and Sailors Relief commission. This group has requested an appropriation of \$35,000 for 1946. The most it has received in any recent year is \$20,000.

Commissioners have no control over this increase as the state law provides that the relief commission can demand up to a maximum of one-half mill, which in this county means approximately \$51,000 under present valuations.

**K**NOWING they faced this dismal picture in 1946, the commissioners sought to do something about it by presenting the one mill tax levy. That would have raised about \$100,000 a year.

From those additional funds the county officials proposed to restore the \$30,000 to take care of existing T. B. hospital cases and to add \$35,000 for care of the most urgent of the additional 100 cases known to exist in the county.

The tax levy would have been for five years. After taking care of T. B. cases it would have left \$35,000 a year for other county needs—a total of \$175,000 over a period of five years.

**H**ERE is what the commissioners proposed to do with that \$175,000:

Fairmount Children's home, operated jointly by Columbiana and Stark counties, needs a new school building. More room is required, because 20 orphans are housed in rooms built for only 12. The main building at the home is in urgent need of repairs.

Columbiana county's share of new construction is 20 per cent. Repairs are made on a per capita basis—according to the number of children sent to the home by each county.

Exact cost figures to cover these needs have not been made available to the commissioners, but a conservative estimate would be several thousand dollars—enough, perhaps, to require financing over more than one year.

Buildings at the County Home, west of Lisbon, are old and need many repairs. The stucco is coming off the outside walls and must be replaced. Some new buildings and new farm equipment are badly needed. Fire escapes are in poor condition and must be replaced. Repairs to driveways mean additional expense.

How much these repairs and new buildings would cost is not known definitely. It is safe to estimate the cost at a considerable figure.

A new roof must be provided for the county courthouse to prevent damage to the interior, which already is in need of repairs. A casual stroll through the building makes that obvious. This item, however, is not as expensive as others on the county's program.

Add all of these up and you will begin to see not only what faces the county commissioners, but what is likely to become of \$175,000 proposed to take care of this program over a period of five years. That is, if the voters had given them authority to levy the money by taxation.

### MULLINS WORKERS VOTE WEDNESDAY ON STRIKE ISSUE

Mullins local No. 1538, United Steelworkers of America, will conduct a strike vote at the plant Wednesday, in conjunction with a nationwide demonstration of CIO-Steelworker unions in 776 plants.

According to Alfons Fenton, president of Mullins local, nearly 1,000 employees of the Salem plant will cast ballots in the strike vote which will be supervised by representatives of the National Labor Relations board.

Actually, the Mullins workers will vote either "yes" or "no" on the question: "Do you wish to permit an interruption of war production in wartime as a result of this dispute?"

The major issue involved, according to the sample strike ballot, is the demand of the United Steelworkers of America (CIO) for a \$2-a-day wage increase.

Should the Mullins workers vote in favor of an interruption of work they will lose their rights to unemployment compensation under provision of the Ohio unemployment laws.

Should the workers cast a majority of "no" votes and vote against striking but be forced into idleness because of the outcome of the election nationally, they will be entitled to apply for and receive state unemployment compensation.

The benefits would be payable because they had voted against the walkout but were forced into doing so through no efforts of their own.

### U. S. P. A. to Confer With Potters Union

EAST LIVERPOOL, Nov. 27.—The United States Pottery association will confer with the National Brotherhood of Operative Potters (AFL), representing some 18,000 employees in 12 states, before acting on a WLB ruling covering working conditions in the pottery industry.

The USPA considered the WLB 19 directive yesterday. Joseph M. Wells, chairman of the association's labor committee announced, but deferred action pending a conference with the brotherhood.

The WLB included an eight-hour day for all workers and a 55-cent-an-hour minimum wage rate for women workers. The WLB denied six requests by employers and four by employees.

### ATOM ENERGY HEARINGS OPEN

#### Cong. McMahon Wants Discovery to Be Boon To Mankind

(By Associated Press)  
WASHINGTON, Nov. 27.—Atomic energy burst into the business of congress again today. The senate atomic committee began a long series of public hearings.

Chairman Brien McMahon (D-Conn.) announced this aim: "To insure that atomic energy becomes a blessing to mankind and not a scourge."

He said this would require "the best judgment we are capable of." Therefore the committee intends to get all the basic facts about atomic energy—"scientific, industrial, economic and social"—and won't even consider any specific bills until it has done this.

**Commission Proposed**  
Sen. McMahon said the group doesn't want to waste time but feels "impelled" to bring out the facts "in the democratic manner."

"The house military committee held two days of public hearings in its consideration of the May-Johnson atomic energy bill, which it approved. This bill would set up a commission to rule atomic development."

Some news about the so-called full employment bill is expected in congress shortly. The house expenditures committee met today to consider a mild version of this measure written by a subcommittee last week.

### U. S. P. A. to Confer With Potters Union

The senate sailed into the second day of an important debate about the United Nations organization (UNO).

Sen. Burton Wheeler (D-Mont) is waiting impatiently for a chance to deliver a speech he has prepared, attacking the UNO as it now stands. He couldn't get the floor yesterday because three young senators were

### Plant Motion Pictures Seen by Columbia PTA

The Columbia Street school Parent-Teacher association met last evening at the school when motion pictures of the Deming Co. plant were shown by George Trisler and Martin Polder, Jr.

The program included vocal selections by Miss Eleanor Buta and Leo Copacica and a piano solo by Miss Eva Rae Hanney. Refreshments were served by Mrs. Lawrence Hall and her committee.

The next meeting will be held Dec. 17.

### First Train Brought Passengers To City 94 Years Ago Today

Ninety-four years ago today, on Nov. 27, 1851, the first passenger train steamed into Salem over the Ohio & Pennsylvania railroad. It marked the beginning of a new era in transportation.

And the city made it a gala day, according to Daniel Howell Hise, a Salem pioneer, who made this record of the event in his diary:

"Today was celebrated by the arrival of passenger cars in Salem. There was an excursion to Alliance with a perfect jam of passengers, after which we all took supper at the town hall. Speeches were delivered by Joseph Brooks, President Robinson, Solomon Roberts and others. I was very much pleased with the trip."

Travel from Pittsburgh to Salem by railroad was begun in the winter of 1851-52.

The Ohio & Pennsylvania Railroad Co., after a few years of good business, was consolidated with the Ohio & Indiana Railroad Co. which built the road from Crestline to Port Wayne, Ind. The Port Wayne & Chicago Co. continued the road from Port Wayne to Chicago.

The three roads formed one line and one company, under the name of the Pittsburgh, Port Wayne & Chicago Railway Co. now the Pennsylvania line. The citizens of Salem were the first to appropriate money for the preliminary work, according to Hunt's history of Salem.

### ARREST TWO BOYS IN THEFT OF CAR

LISBON, Nov. 27.—Authorities are holding two Madison township youths in connection with the theft and stripping of an auto, owned by Ray Keller of Midland, Pa., after their arrest yesterday by Deputy Sheriff Howard Clark and John Drovidic.

The deputies arrested the pair yesterday after they found the wheels of the stolen car stored in a car owned by Theodore Davis, 19 of near West Point. Davis' confession involved Burt Shields, 18.

They had stolen the car, dismantled the motor, towed the auto several miles and abandoned it after taking the wheels. The motor and \$500 worth of mechanic's tools in the car were hidden in an abandoned strip mine near the youths' homes.

## 2,424 Will Share Record \$131,317 Yule Fund Here

Christmas planners—those thrifty individuals who weekly "salt" away a little extra cash in preparation for the holiday season—went all out this year and as a result will share in the distribution of \$131,317.45 on Dec. 1, officials at the First National and Farmers' National banks announced today.

Hitting an all-time high for Christmas Savings clubs, some 2,424 club members have saved that amount, which is \$25.1825 more than has been accumulated here before.

Bank officials said the Christmas checks would be placed in the mails late Nov. 30 and would be delivered throughout the city Dec. 1, thereby giving Yuletide shoppers plenty of time in advance of Christmas.

**Average Is \$52**  
An increase in the larger membership was noted again this year, with the \$5 and \$10 weekly savings groups including more members than ever before.

These higher bracket clubs, officials declared, were more faithful in keeping up their weekly allotments.

Checks to the individuals who saved this year average \$52 per person, a mark well over the \$40 average in 1945 and somewhat better than the \$40 average cited in 1944.

The decrease of interest and payments in the smaller savings clubs—those ranging from 25 cents a week to \$1 and \$2 memberships—is attributed by bankers to the increased purchasing of War savings stamps during the past year.

### SALEM COMMITTEE PREPARES FOURTH TOWN HALL SEASON

Decision to continue the Town Hall meetings for the fourth season was reached at a meeting of the committee last evening in the Lape hotel.

Four or five meetings will be scheduled, depending upon whether a speaker can be booked for the early part of December. If not, the meetings will open in January.

The meetings, to be held in the High school auditorium, will be free to the public, as in past seasons. A committee was appointed last night to raise funds through private donations to finance the programs.

Ralph Hawley, chairman since the Town Hall meetings were first opened in the fall of 1942, was re-elected chairman. L. H. Colley continues as treasurer.

The original committee, composed of Mrs. W. H. Dunn, Miss Mary Bowman, F. P. Mullins, E. S. Dawson and Hawley, was augmented by the addition of several members the first year. The season's committee includes, besides the five named:

Judge Joel H. Sharp, F. J. Emery, Ralph Atkinson, R. S. McCulloch, Mrs. Elizabeth Baker, E. S. Kerr, Walter L. Strain, L. H. Colley, Eugene Young, T. E. Miller, F. W. McKee, Mrs. George Emery, Miss Katherine Gibson, Kenneth Wirtz, Mrs. George W. Bunn and Mrs. Guy E. Byers.

### Civilian Defense Council Officially Buries Itself

Salem's Civilian Defense council, the governing body for groups organized for various home defense problems during the war period, conducted its own burial rites yesterday noon after performing its final official duties.

Its work completed some time ago, it was officially disbanded by the state council under which it served. The state body directed that a balance of \$470 in the Salem council's operating fund be turned over to the city.

That function was performed at the final meeting in the Lape hotel yesterday noon, presided over by Chairman Ralph Atkinson.

The group gave a vote of thanks to Atkinson for his successful leadership and untiring efforts after the chairman had expressed his appreciation of the cooperation given by every member of the council.

## CHINESE GIVEN 700 U.S. PLANES

### American Ships In India, Burma Flown to Chinese Nationalists

(By Associated Press)  
CHUNGKING, Nov. 27.—Chinese Nationalists today heard that some 700 American planes are being flown into China, presumably for their use, as Central government troops drove to within 90 miles of Mukden, vital rail center in the battle for Manchuria.

Associated Press Correspondent Richard Cushing wrote from Shanghai that virtually every flyable American plane in India and Burma was being flown into China in an operation which has cost several American lives. There were 15 crashes last Thursday when 22 P-51s flying from Kunming to the Shanghai area encountered a weather front.

Cushing was told the War department ordered the flight and that the 10th air force was bringing transports and the 14th air force fighters. Ranking officers told Cushing the aircraft undoubtedly would be given to the Chinese Nationalists.

United States air force officials said it is vital the United States protect Allied gains in China. Cushing wrote, but the men flying the aircraft "are debating angrily whether they ought to be risking their lives."

There was no report of opposition to the Nationalist advance. Unconfirmed press reports indicated the Russians will permit the Nationalists to garrison Manchuria.

The Soviets also were said to have pledged the safety of Nationalist troops flown into Changchun or Mukden.

Russia will adhere to the spirit of the Sino-Soviet friendship and alliance pact, these reports declared, but will postpone withdrawal of Soviet troops from Manchuria until January.

Mrs. Long was committed to that institution Oct. 29 and has since been under observation of psychiatrists.

### ASSISTANT COUNTY AGENT IS CHOSEN

LISBON, Nov. 27.—Chester Roof, a discharged World War II veteran, has been selected by a group of county agricultural organizations to fill the vacant position of assistant county extension agent.

Roof, a graduate of the Ohio State university Agricultural school, served in extension work in several counties before entering the service. He now resides in Carrollton, but expects to make his home in Lisbon when he assumes his duties here on Dec. 1.

The selection was made by a combined group of county organizations last night and is subject to the approval of the Ohio State university.

Roof will replace John Strausbaugh, who resigned in May, 1944, to accept a position as county agent in Seneca county.

### 3 Navy Planes Make Forced Landing Here

Three U. S. Navy planes, whose pilots were believed to have lost their course, made forced landings on the Vance Bell farm, off the Georgetown road, late yesterday. None of the planes was damaged.

The pilots took off early today and continued on their course after spending the night in Salem.

## DECLARES U. S. POLICY FAILS IN FAR EAST

### Says Professional Diplomats Preventing Aims Attainment

(By Associated Press)  
WASHINGTON, Nov. 27.—Major Gen. Patrick J. Hurley today announced his resignation as United States ambassador to China, and asserted American foreign policy had failed in Asia.

Hurley charged the United States had "finished" the war in the Far East furnishing lend-lease supplies and using all our reputation to undermine democracy and bolster Imperialism and Communism."

"In diplomacy today, we are permitting ourselves to be sucked into a power bloc on the side of colonial imperialism against Communist imperialism," he asserted.

"I am opposed to both. I still favor democracy and free enterprise."

### Aims Frustrated

The retiring ambassador to Chungking said he agreed entirely with the outline of American foreign policy which President Truman made in his Navy day address, but stated "professional diplomats in the lower echelons were frustrating attainment of announced policy aims."

Hurley said that when he was assigned to China he was directed by President Roosevelt to prevent collapse of the Chiang Kai-Shek government and keep the Chinese army in the war.

Hurley stated that these objectives were accomplished.

Hurley said, however, it was "no secret the American policy in China did not have the support of all the career men in the State department."

### Side In With Communists

"The professional foreign service men sided with the Chinese Communist party and the imperialist block of nations whose policy it was to keep China divided against herself," Hurley asserted.

"Our professional diplomats continuously advised the Communists that my efforts in preventing the collapse of the National government did not represent the policy of the United States."

"The same professionals openly advised the Communists armed party to decline unification of the Chinese Communist army with the National army unless the Chinese Communists were given control."

"Despite these handicaps we did prevent civil war between the rival factions, at least until after I had left China, that when some 'professional diplomats' were recalled from China at his request they were placed in the State department as his 'supervisors'."

## BOND DRIVE NEAR HALF-WAY POINT

With but 10 days remaining in the Salem Victory Loan campaign, the totals here have nearly reached the halfway mark. Chairman Leo B. Vincent said today.

Data to sales have reached \$727,755, just \$50,000 short of the halfway mark. Of that total \$118,708.50 is in E. Bonds.

The chairman said the progress within the past two days was "very encouraging" and he indicated that the city could make its goal if efforts were redoubled and individuals would invest their savings as heavily as possible.

Salem's progress in the drive is as good or better than most cities of the same size, and Vincent is anxious that the community make a good record in the final campaign.

### Gay To Attend Scout Meeting On Thursday

County Boy Scout Executive Don Gay will meet with the board of review at the Memorial building at 7:30 p. m. Thursday to consider requirements for higher scout ratings for a group of Salem Scouts.

The board of review meeting here will be in charge of K. U. Wirtz.

Afterwards Gay will attend a rural scout meeting at the Pleasant Valley grange where he will show films on "Rural Scouting."

## When Washington's Ox Is Gored

The Truman administration's promptness in coming to the rescue of Washington bus and street car riders when the capital was held up by its second transportation strike in a month provides a thoughtful interlude for the rest of the country. When Washington's ox is gored, there is no academic discussion of theory, but a quick showdown.

Industrial strikes in Washington are unheard of, for the simple reason that Washington is not an industrial city. There are no General Motors branches in the capital, for example. But if a transportation strike can disturb Washington to the point of action, it is easy to imagine what might happen if the seat of the federal government were Detroit.

Strikes in that event might cease to seem to be misfortunes that happen in localities remote from the White House and the Capitol and become, in government opinion, what they clearly are in fact—tragedies inflicted on cities and industries. There might be less careful attention to handling them in a political manner guaranteed to alienate a minimum of votes and more careful attention to handling them in a manner calculated to preserve the general welfare from the arbitrary decisions of any minority. The fact is, as Washington seems to have discovered in its transportation strike, that the unrestrained use of the strike weapon is hurting the American public and giving organized labor a black eye.

The great danger is not interference with production, great as that is, but interference with confidence in the ability of existing organizations to find answers to public problems. The United States is not immune to the ferments that have disrupted order and discipline in other nations. But if it is lucky, the United States will recognize that moderation is a better bet for an orderly future than extremism. If organized labor insists on striking when it feels like it, regardless of its contracts, the public, as organized in its government, will have to insist on something being done about it.

## Two-Party Government

It is unlikely the special committee studying modernization of Congress will obey its impulse to recommend official establishment of the two-party system in Congress. The committee's interest in this proposal to lay down party lines where voters can see them and legislators can be measured by them is probably academic.

Still, it is interesting—this possibility of giving official status to one of the fundamentals of American life. We are accustomed to believe and to say that the two-party system is invaluable, but to act as if it were an imposition on our good nature when asked to register, to participate in primaries and to support one of the two parties.

If the two-party system had something more than nominal status, it could resist corruption by its natural enemies—the organized minorities and the minor political parties that are dedicated to its destruction. There probably could be no such thing, for instance, as an alliance between Democrats and Communists in New York City, no such thing as an alliance between a labor union and Democrats in Detroit. The Democratic party could lay down a party line in behalf of all its members that would exclude vote-caddying by local organizations. The United States could have the benefit of two-party government in fact, as well as in name.

But as far as that's concerned, if the United States made private enterprise its official economic line it could have the benefit of that in fact as well as in name, too. As it is, in party politics and economics, the line of least resistance is to pretend that consistency can be violated with impunity—a form of self-deception that so far has reduced deficit financing and the virtual collapse of the two-party system.

## Organized Temperament

The recent trouble at New York's Metropolitan Opera gives you a rough idea of what can happen when labor relations get mixed up with artistic temperament. It seems that the opera's chorus got into a dispute with its own union, the American Guild of Musical Artists, about some contract clauses the chorus members wouldn't sign.

When the contracts failed to come back A.G.M.A., by way of punishment, suspended one of the chorus officers who is also a member of A.G.M.A.'s own board of governors.

So what did the chorus do? It served notice on the Metropolitan management that there would be no more rehearsals until the suspended member was reinstated. It gave the management a short time in which to act, after which, it said, "we shall conclude that the management proposes to lock out the chorus".

Maybe you'd like to go back and read that again. Finished? Then let's go on. The opera management wasn't a party to the dispute. It had no right to reinstate the suspended chorus member. If it had tried it would have had to go over the union's head and run the risk of losing not only its chorus but its leading singers, most of whom belong to A.G.M.A. for the same reason that most of the famous instrumental soloists belong to Mr. Petrillo's American Federation of Musicians—because they have to.

So the opera management didn't reinstate the chorus member, and the choristers, who walked out, now consider that the management locked them out.

The whole thing makes about as much sense as most of the plots of the operas in the Metropolitan repertory. So maybe it's all perfectly clear to the folks at the Met.

## There Isn't Much Time

There isn't much time in which to conclude the Victory Loan and make it the great success we all wish it to become. But there is enough time for us to get down to business and put this final campaign over the top in a manner fitting to the public-spirited and patriotic citizens of Salem.

The Victory Loan should have the undivided attention and support of all our citizens. For us there can be no limit, or point at which we can say—well, that's that. We must continue to drive on until the final day with no thought of the money paid in for Victory Bonds.

Let us set for ourselves the task that was assigned to our boys. They kept on. Accomplishment of one objective only leads to another, and harder, objective. They continued on and on until the final victory. This we must do in the Victory Loan. There is no alternative.

Then, too, the Victory Loan is needed to provide education and rehabilitation of our wounded now. There is a more personal side, of course. The Victory Bonds, Series E, at maturity, for example, pay their owners back \$4 for every \$3 invested.

So put aside those plans to purchase unessentials. Instead buy Victory Bonds. They are essentials—essentials for our wounded and for our own futures.

## The Stars Say

For Wednesday, November 28.

A KEENLY lively and enterprising spirit pervades all interests and ambitions, in business, finance, professional and romantic affiliations, in which brilliant techniques may push on to high spots of achievement, progress and personal gratification, this despite petty delays, annoyances and upsets, perhaps calling for change of plans or environs, and exceptional alertness to duplicity.

Schemes and craftiness may be bypassed by clever ideas and some serious and forthright thinking and action. Those in position and financial standing may assist.

Those whose birthday it is may expect a lively and productive year in which initiative and enterprise, together with exceptional ingenuity, creative ability and shrewdness may be the means of offsetting defeat, loss, upheaval and the crafty, illicit and subtle designs of unreliable persons or cheats.

Particular caution in all writings, contracts, documents and oral agreements is in order, and the friendly aid of those in power and financial standing may be forthcoming. Forge ahead despite upheavals, obstacles and deceit, as the mentality is keen, alert, equipped to circumvent all impediments.

A child born on this day is exceptionally capable, versatile and creative, assisting it to overcome menacious and difficult obstacles and attacks.

We are told that some day everything in the home will be operated with a push button. We're patiently waiting—button, button, who's got the button?

Now we're wondering where the money is that we saved on coal during the hot summer months.

Let other people talk about themselves and they think you are very interesting.

A smile goes a long ways sometimes, when it is most needed at home.

Mouth Sores Sign of Illness

By HERMAN N. BUNDESEN, M.D.

SORES in the mouth are sometimes very painful, and, because of the many things which may produce them, they are not always easy to eliminate. According to Doctors Martin Heinemann and Bert G. Anderson of Yale University School of Medicine, these sores in the mouth may indicate that there is some disturbance of the action of the sex glands and may occur during pregnancy or at the change of life.

They may be due to allergy or over-sensitivity to some food or may be only the result of poor care of the mouth.

## Lack of Vitamins

Often the sores produced by these various conditions cannot be told from those due to lack of certain vitamins, particularly vitamin B-2, or riboflavin or niacin which is a part of the vitamin B-complex. Hence, when these sores develop, the first thing that must be done is to attempt, if possible, to determine the cause.

If the sores in the mouth are due to a lack of certain glandular secretions, as indicated by irregularities in the periods, treatment with the gland extracts are used to bring about a cure. It is suggested that either estrogenic substance or progesterone may be required. The estrogenic substance is advisable for those patients in whom the sores in the mouth appear five to twelve days before the regular periods.

## Progesterone Used

The progesterone is used in those women who have an excess

sive menstrual flow with pain and swelling of the breasts before the regular periods or in whom the sores get worse about three days before the periods. Both of these gland extracts have to do with the action of the ovaries or sex glands.

In one of the patients treated by Doctors Heinemann and Anderson, the elimination of strawberries from the diet cleared up ulcers of the tongue as well as blister-like sores on the lips resembling cold sores. In another patient, the elimination of eggs from the diet cured the mouth disorder.

## Food Sensitivities

Other persons were found to be sensitive to chicken, tomatoes and oranges. In these patients, not only were the foods causing the trouble eliminated from the diet, but they were also given ammonium chloride, which seemed to be quite beneficial.

Sometimes it is found that mouth sores occur in elderly persons with anemia or lack of coloring in the blood, together with a lack of acid in the stomach. A careful study will usually reveal the cause for sores in the mouth so that the most effective treatment may be carried out.

## The real "take-home"

If wages go up and output does not—living costs rise. Then a man may be no better off than he was in the first place.

As a matter of fact, he may be worse off. Because that's the start of the inflation spiral with its mounting cyclone of confusion. And once the spiral starts, prices usually keep two jumps ahead of wages.

It doesn't help to have \$2 to spend instead of \$1, if eggs go to \$1, then \$1.50, then \$2 a

dozen—and butter and bread and shoes and shirts double, then triple, in price.

That's the trouble with the theory that you can increase buying power simply by raising wages.

The most important thing isn't what a man makes in wages per week—

The most important thing is how much he can buy with the wages he makes.

The "take-home" that really counts isn't what you take home in pay, but what you can take home from the store!

## Battle For Markets

By DEWITT MacKENZIE,  
AP World Traveler

LONDON, Nov. 27.—The war is over (or is it?) but the people of England are finding fresh reason to recall the historic warning by Winston Churchill early in the conflict that he had nothing but sweat and tears to offer them when they went out to meet the German hosts.

England gave her blood. She gave her tears until they ran dry. But now that phase of the war is in the background, there still remains the sweat.

England is facing a long period of sweat and privation which may be even harder to bear than the trials of war, because the stimulus of the battlefield and the urge for defense are lacking.

Yesterday Mrs. Mac and I told you that the people of England are mighty tired and more than a bit discouraged because there is no sign of any relief in the way of better food or other necessities. They had thought that once the war was over these things would improve—but that is not so.

The reason for this is one of the most important developments of the war. England's foreign trade is her lifeblood. Naturally she lost most of it during the conflict because her resources were wholly directed to war purposes. Now she is faced with the problem (1) of restoring that all-important foreign trade, and (2) giving the home population the thousand-and-one things they need after more than five years of war—and she can't do both at the same time.

The upshot of this is that the government has decided to devote most of its manufactures to foreign markets. In short, it is calling in a very weary population for a lot more sacrifice and sweat. There is to be a battle royal for world markets.

Committees have been appointed. Sir Stafford (Austerity) Cripps says the purpose of these committees is to "get industry in the position to meet the very hard competition they are going to meet in about two years' time." He states that all major industries of the country are going to be lined up. These include cotton, pottery, furniture, hosiery, boots and shoes.

It takes a fair amount to make John Bull laugh these days, but he developed a broad grin over an incident that befell Sir Stafford while addressing leaders of the automobile industry. Sir Stafford declared that the people of England should go without cars so that export cars can be built up. This brought cries of "No! no!" and "triple!" from some of his hearers. It developed they were dealers for the home trade.

What does all this mean to the man-in-the-street and his missus? The distasteful side of this column partnership, who knows her England well through long residence here, has been investigating this point.

One thing that has impressed her especially is the large number of pinched faces one sees, and I had noted that too. There are two reasons for that—one being the strain of the war and the terrific bombing which England endured, and the other, the thin and monotonous diet.

For example, the food ration allows each person only 24 cents a week for meat, although there are three ounces of bacon besides. You get about one fresh egg and one small package of dried egg powder each month. Fish and rabbits aren't rationed and the result is that everybody queues up for this food. Many people take sandwiches to work with them so that they can devote the lunch hour to a queue. Mrs. Mac saw a queue lined up at a shop selling horse-meat—something unheard of in England before the war.

As for clothing, you can whistle for it. Everything is out of style and shiny. Runs in stockings are the order of the day. Rationing of clothing is tight. A man's suit goes for 26 coupons, and the law allows him 24 for a year. He has to beg or borrow the extra two. Many people stand in queues all day long to get shoes.

There is a similar situation in respect to all necessities and luxuries. Sure, the black market is in operation. If you are unscrupulous you can buy most anything you want.

## ATOM ENERGY

(Continued from Page 1)

is an argument with the Veterans from Connally of Texas.

Debate Issue

Senators Bill Fulbright, Joe Ball, and Glen Taylor, aged 40, 40, and 41, respectively, spoke out for something even stronger than the UNO—some form of world government—to keep the peace. Connally, chairman of the foreign relations committee, snorted, "I don't want world government ever."

The reason for the debate is a bill, sponsored by Connally's committee, setting up the machinery of delegates, military forces, etc.) by which the U. S. would take part actively in the organization.

The house started another sort of debate today, over a \$1,131,452,000 appropriation bill for a number of different agencies. The main question apparently will be over whether to add \$128,475,000 for rivers, harbors, and flood control projects. Republicans are fighting a Democrat-backed drive to add the money.

## Predicts 10-Year Control of Germany

FRANKFURT, Germany, Nov. 27.—Gen. Joseph T. McNarney predicted today Germany would be occupied at least 10 years and probably longer.

He spoke as he assumed command of American troops in the European theater from Gen. Eisenhower, new Army chief of staff.

McNarney said Gen. Eisenhower had cancelled plans for an immediate visit to Europe to bid his command farewell, but that he would return, if possible, at a later date.

He said he hoped to inaugurate a gradual policy whereby officers with long overseas service would be able to get home as soon as replacements were found for them. He said he doubted whether families of occupation troops could be moved here this winter.

## Typhoid and Dysentery Are Rampant In Berlin

BERLIN—Dysentery and typhoid fever are taking a severe toll of the population of the German capital.

Caused principally by drinking of polluted water, there has been such a serious increase in the number of deaths among the Berlin civilian population, that cemeteries and crematories are working overtime.

At the crematorium of the Wilmsdorf district of Berlin, situated in the American sector of town,

about one hundred bodies are lined every day, waiting to be cremated. The backlog is partly due to the fact that cremations and burials can only take place with a doctor's certificate.

The doctors of Berlin being both scarce and extremely busy these

days, most of the deceased—among whom there are quite a few political suicides—remain unburied for from three to seven days.

New bathtubs should be laundered before used to make them more absorbent.

## Garden Club's Guest Day Luncheon Enjoyable Affair

Mrs. Frank Ripple, president-elect of the Youngtown Garden Club, was an honor guest at the annual guest day luncheon of the Salem Garden Club held Monday afternoon in the assembly room in the Presbyterian church.

Mrs. Bertha Tinker of Hudson, guest speaker, gave a talk on "The Making of Arrangements" and augmented it with posters.

The tables presented a beautiful

appearance, adorned with fruit and floral arrangements. Places were set for 108 guests.

Ribbons were offered in the decorations. The winners are:

Fruit—First, Mrs. Raymond Cuthbert; second, Mrs. G. T. Harding; third, Mrs. Frank Mangus; honorable mention, Mrs. Carl Flickinger and Mrs. W. P. Davis.

Dried material—First, Mrs. C. H. Waldron; second, Mrs. R. L. Schiller; third, Mrs. J. J. Waechter.

Floral—First, Mrs. James Rawsthorne; dish garden, first, Mrs. E. Huffman.

Mrs. J. H. Yengling sang two solos, "The Little Hills Are Calling" (Morris) and "Dream Cottage" (Wetzell) accompanied by Mrs. Homer Taylor.

The club will hold a Christmas tea Dec. 10 at the home of Mrs. R. R. Miller on S. Lincoln ave. At this meeting the members will bring Christmas gifts for the children at the Fairmount Children's home.

### Garden Study Club Enjoys "Trees" Talk

An instructive talk on "Trees" was given by W. H. Matthews to members of the Garden Study Club at a meeting last night at the home of Mrs. Homer Taylor on Jennings ave.

The roll call response was "A Feathered Friend." Two papers were presented, "Attracting Birds" by Mrs. George Hilliard and "Feeding Stations" by Mrs. Wallace Duncan. Mrs. Herbert Yengling entertained with two vocal solos. Mrs. Russell Moore contributed a poem, "And the Tree Spoke and Said."

Mrs. W. H. Matthews was a guest. Mrs. Taylor and her associate hostesses, Mrs. Elmer Kerr and Mrs. Moore served refreshments.

The club will have a Christmas party Dec. 17 in the Lape hotel.

### Pasco-Holloway Rites Held At Madison

Miss Shirley Pasco, daughter of Mr. and Mrs. George Pasco of Madison, and Frank Holloway, son of Mrs. Pearl Holloway of Salem, were the principals in a beautifully appointed candlelight wedding ceremony at 3 p. m. Sunday in the Madison Methodist church. The pastor, Rev. Edwin Eschelman, read the double ring service.

The altar, decorated with palms, ferns and yellow chrysanthemums, was lighted with white candles in tall seven-branch candelabra.

The bride wore a light green street length dress and a corsage of Tulleman roses.

Miss Dorothy Van Pelt of Cleveland, maid of honor, was costumed in gold crepe. She wore a corsage of red roses. Lee Holloway of Painesville, formerly of Salem, a brother of the groom, was best man.

A reception was held for the couple at the home of the bride's parents, Mrs. Holloway of Salem was among the guests. Others were from Cleveland, Painesville and Madison.

The bride is a graduate of the Madison High school. Mr. Holloway attended Salem High school.

Mr. and Mrs. Holloway are employed in the Kroger store at Painesville, where they will make their home.

### Rock Wool Insulation Cut Down On Heat Loss

Government research shows that Rock Wool Insulation saves about 30 per cent of fuel in the average home by checking the heat loss through roof and sidewalls.

If your fuel bill has been averaging \$100 each year the savings you could expect by insulating would be approximately \$30 annually.

Aside from the actual yearly saving, the fire hazard is greatly reduced in any insulated home if "Blown" Rock Wool is used as the insulation material. The space between the walls act like a flue which rapidly spread a fire while if this space is filled with fireproof Johns-Manville "Blown" Rock Wool, the fire cannot leap from floor to attic.

R. B. Finley of the Finley Music Co. on S. Broadway is the Columbiana county representative for Johns-Manville "Blown" Rock Wool.

### Hine Urges Safeguards Now For Winter Driving

"Preparation now for winter driving is a sensible accident preventive," says H. I. Hine of the Hine Motor Co.

Winter weather often comes without warning and the driver who is ready at all times seldom gets into trouble.

"It would be well to check all equipment now—tire treads, brakes, steering gear, lights (extra bulbs in the panel compartment for emergencies), windshield wipers, defroster and horn. During the winter, drivers should check the batteries and tire inflation frequently and should be sure that there is sufficient anti-freeze and oil.

"Winter brings on seasonal conditions which are doubly hazardous and the last two months of the year top all others in fatal accidents. Why take chances—be sure NOW that your car is properly equipped to meet all of the hazards brought on by winter.

### HOME REPAIRS IN COUNTY ESTIMATED

More than \$4,226,000 is expected to be spent during the next five years by Columbiana county home owners on remodeling and repair work.

The year 1946 promises to inaugurate one of the greatest eras in American history for home repairs and modernization, according to estimates released by the Title Council of America.

Because of lack of materials and manpower during the war, majority of the county's 23,307 dwelling units are in need of some kind of repair or remodeling work.

Ohio home owners are expected to spend an estimated \$331,430,000 and those of the nation more than \$5,500,000,000 for major repairs in the next five years.

# Salem's Fight Fans Offered Second Evening Of Boxing

## Leroy Davis, Local Fight Entry, Included On Card

Salem fight fans will have their second evening of boxing—at the Memorial building at 8:15 p. m. Thursday—through the efforts of the Salem Athletic club and promoter Scott Chisholm.

With amateur and professional matches scheduled this time, Chisholm has arranged to include a local lad—Negro Leroy Davis—in one of the amateur bouts.

A three-round go of professional fighting, matching George Bolin, the matchmaker, with Art Tate of Cleveland, a middleweight, will be the main feature on the Thursday card.

The complete card includes a five round go between Joel McNeal of Cleveland, and Lulu Sabotin of Warren, both welterweights, in the opener.

In the second match Tony Zarbrizio of Warren, another welterweight, will tangle with his weight equivalent, Ed Johnson of Cleveland in a five round affair.

Willie Salanki, in the 112 flyweight class, will meet J. Zadel in a three round preliminary.

Another three round affair will match Young Smiley, 118 pound Warren lad, with an opponent as yet unnamed.

Willie Jacobs of Cleveland will meet Leroy Davis in a three round bout of bantam weight ranking. The bout will be Davis' first public appearance as a fighter.

**Bolin Featured**  
In the featured bout Bolin will take on Art Tate, a professional, in a three round middleweight fight.

Bolin's three rounder will mark his finale in the exhibition field before he attempts his professional comeback as a middleweight.

The Cleveland man, who has lived in Salem for the past six months, has been working out daily here and is getting into shape for a return to the ring. He previously fought under Johnny Papke of Cleveland in the amateur circles.

Papke will handle the announcing here and Mike O'Keefe, a Salem man, will do the officiating in the ring.

## SPORT CHATTER

**BY HUGH FULLERTON, JR.**  
NEW YORK, Nov. 27.—Sure Joe DiMaggio will be back in big league baseball next summer—and how! Pollet and Johnny Mize and a lot of other prewar stars—but who wants to bet that the big star by midsummer isn't some kid who was virtually unknown before he went into service? Most of the clubs will be trying out youngsters who were just about ripe for the majors when Uncle Sam tapped them. For two or three years or more they've been maturing and developing and often playing a lot of baseball on Army and Navy teams. Take a look at a few:

**QUESTION MARKS**  
Ever hear of Bill Rigney? He's the kid shortstop who looked so good in the Coast league that the Giants gave Dolph Camilli and other valuable considerations for him even though they knew he was going to be in the Navy a few years. He's out now and they're figuring on him as a regular next season. And how about Don Schmidt or Herb Karpel? They're pitchers who've got Yankee trials. Schmidt, who belongs to Newark, gets high praise from Joe DiMaggio, who battled against him in Hawaii. Karpel pitched a no-hitter in the Eastern league in 1940 and was with pennant-winning clubs his first four years in the minors. Then there's Eddie Waitkus, who had a look at a few big league games. The Cubs think he may force them to shift Phil Cavarretta next summer.

**NAMING NAMES**  
A few more taken from Red Patterson's list of National leaguers whose names have been on or will be removed from the national defense list: Braves—Arthur Johnson, pitcher; Buddy Gump, infielder; Dodgers—Chris Haughey, Cal McLash, Joe Hatton, pitchers; Jack Graham, outfielder; Gene Mauch, Eddie Miksis, Claude Corbitt, Les Burge, infielders; Cubs—Whitney Platt, Marvin Rickert, outfielders; John Schmitz, pitcher; Reds—Jim Konstantly, Ewell Blackwell, Robert Malloy, pitchers; Eddie Lukon, outfielder; Giants—Bobby Fox, Bud Blattner, infielders; Phillies—Frank Horst, pitcher; Cardinals—Fred Martin, pitcher; Ery Dusak, John Wyrostek, outfielders; Pirates—Ed Albosta, Jack Hallett, pitchers; Ed Leip, infielder; Ed Stewart, outfielder. Some of these guys aren't entirely strangers but they never were established major leaguers.

**Dempsey Out of Service**  
NEW YORK, Nov. 27.—After nearly four years of service in the Coast Guard, Jack Dempsey, former world's heavyweight champion, is a civilian again. Dempsey retired as a commander when he received his honorable discharge yesterday.

**Wolverines Get Letters**  
ANN ARBOR, Mich., Nov. 27.—Twenty-nine members of University of Michigan football team, which took second place in the Big Ten conference this season, were named as varsity letter winners by Coach H. O. Fritz Crisler today. Letter winners included Stuart F. Wilkins, Canton, O.

## Youngstown Bears Lose Cage Opener

**YOUNGSTOWN, Nov. 27.**—The Youngstown Bears, professional basketball entry in the National Pro league, last night absorbed a 45-39 beating in their inaugural at South field house before approximately 3,300 fans.

Owned by Del Courtney and coached by Paul Birch, the Youngstowners had difficulty all the way with the superior height of the Sheboygan, Wis. entry.

A near free-for-all developed in the third frame when too much rib-punching by one lanky Wisconsin lad caused an uprising among the Bear squad. Three players were ejected from the game.

## Coach's Dart Game Provides Recreation For Crile Veterans

Coach Ben Barrett of Salem High school, originator of a dart football game, "Touchdown," which is becoming quite popular with indoor enthusiasts over the country, has the satisfaction of knowing his game has given entertainment to internees of at least one veterans hospital.

In receipt of a letter and picture from Crile General hospital officials in Cleveland, Barrett learned recently that a game he sent to a friend there had become popular with the recovering veterans.

**Request More**  
Hospital authorities asked Barrett if more of the games could be forwarded to the hospital so other veterans might share in the fun. The Salem coach dispatched a dozen more to the hospital and is contacting recreational officials in Washington to see if games could be used in other hospitals. Patented and now on the market, the game, listed as a product of the Touchdown Co., 648 Ohio ave., Salem is being distributed throughout nation by large retail concerns. After a summer of work on his pet project, Coach Barrett is beginning to realize monetary returns, but he terms his recent information from Crile hospital as "the most important so far to me."
